

Private Indoor Pool with Skimmer.

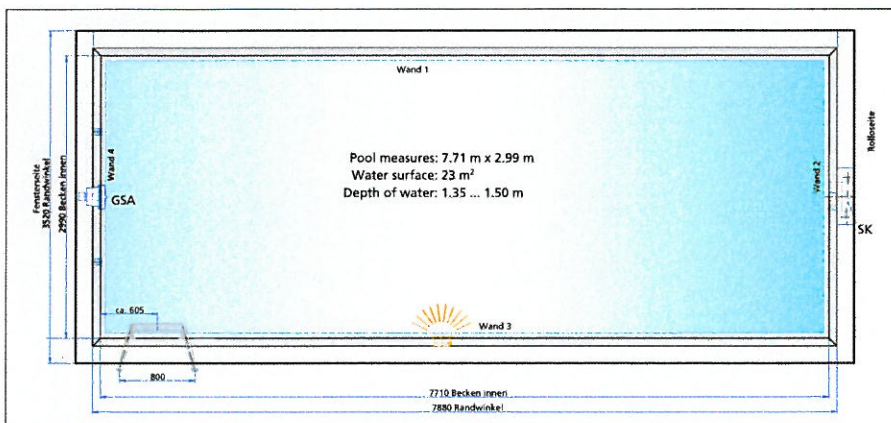

Private Indoor Pool with Skimmer. Finally, a permanent solution!

An already several times restructured indoor swimming pool has been provided with a stainless steel vat. The previous existing pool measures have barely been changed. The mounting parts have been modernized completely.

This pool is equipped with the following:

- A skimmer
- An underwater spotlight
- A counter current
- And an attached ladder

This pool has been installed in only 2 weeks time!

Technical Specifications:

Pool measures: 7.70 x 3.00 m
Depth of water: 1.35 m to 1.50 m
Water surface: 23 m²
Water technique: company OSPA
Installation: summer 2006
